

1           WHAT IS CLAIMED IS:

1       1. A computer system to facilitate the management and communications at institutional,  
2           regulatory and individual user community continuing education requirements, said system  
3           comprising:

4                   a general purpose computer;

5                   a memory that stores an institutional, regulatory and individual continuing  
6           education requirements program;

7                   a central processing unit that, when executing said program, adapts said general  
8           purpose computer to facilitate and manage communication between said computer and a  
9           plurality of user communities, said communication addressing said communities individualized  
10           continuing education requirements.

1       2. The system of claim 1 wherein said adapted computer's facilitation and management of  
2           communication further comprises:

3                   (a) identifying and managing employer identified relationships and associated continuing  
4           education requirements;

5                   (b) identifying and managing continuing education content provider and associated  
6           continuing education requirements;

7                   (c) identifying and managing continuing education accrediting agency identified  
8           relationships and associated continuing education requirements;

9                   (d) identifying and managing professional association identified relationships and  
10           associated continuing education requirements;

11 (e) identifying and managing individual professional identified relationships and  
12 associated continuing education requirements;  
13 (f) identifying and managing regulatory agency identified relationships and associated  
14 continuing education requirements;  
15 (g) identifying and managing business entity identified relationships and associated  
16 continuing education requirements; and  
17 (h) identifying and facilitating administrative support and database maintenance  
18 functions.

1 3. The system of claim 1 wherein said general purpose computer further comprises a video  
2 display and input device, said video display and input device configured to facilitate user  
3 interaction with said central processing unit.

1 4. The system of claim 1 further comprising at least one database communicably attached to  
2 said general purpose computer.

1 5. An interactive computer based method to facilitate the management and communications  
2 of institutional, regulatory and individual continuing education requirements, said method  
3 comprising:

4 (a) identifying and managing employer identified relationships and associated  
5 continuing education requirements;  
6 (b) identifying and managing continuing education content provider and associated  
7 continuing education requirements;

8 (c) identifying and managing continuing education accrediting agency identified  
9 relationships and associated continuing education requirements;

10 (d) identifying and managing professional association identified relationships and  
11 associated continuing education requirements;

12 (e) identifying and managing individual professional identified relationships and  
13 associated continuing education requirements;

14 (f) identifying and managing regulatory agency identified relationships and associated  
15 continuing education requirements;

16 (g) identifying and managing business entity identified relationships and associated  
17 continuing education requirements; and

18 (h) identifying and facilitating administrative support and database maintenance functions.

1 6. A computer readable medium encoded with a computer program for identifying and managing  
2 institutional, regulatory and individual user community continuing education requirements  
3 comprising:

4 (a) an instruction set for identifying and managing employer identified relationships and  
5 associated continuing education requirements;

6 (b) an instruction set for identifying and managing continuing education content provider  
7 and associated continuing education requirements;

8 (c) an instruction set for identifying and managing continuing education accrediting  
9 agency identified relationships and associated continuing education requirements;

10 (d) an instruction set for identifying and managing professional association identified  
11 relationships and associated continuing education requirements;

- (e) an instruction set for identifying and managing individual professional identified relationships and associated continuing education requirements;
- (f) an instruction set for identifying and managing regulatory agency identified relationships and associated continuing education requirements;
- (g) an instruction set for identifying and managing business entity identified relationships and associated continuing education requirements; and
- (h) an instruction set for identifying and facilitating administrative support and database maintenance functions.
